

Consulting services

- We customize pre-file searches and monitoring services according to your needs and requests.
- We are bound by secrecy.
- We search in numerous databases, not just trademark, trade name and surname databases.
- We deliver to a fixed price within 7 days or 24 hours.
- Our searchers are experts in their respective fields and they have 40 years of experience in trademarks.

Custom made Pre-file searches

We investigate thoroughly to help you assess your chances of receiving a trademark registration in Sweden or abroad. We investigate whether there are other similar brands on the market, or for example, if you are at risk of infringing someone else's rights when you import a product. We are not satisfied with only providing you with information on legal hindrance, but we also inform you on free domain names and titles of newspapers.

A large selection of monitoring services

We can help you monitor your trademark in order to prevent others from registering a similar or identical trademark within the EU. You can also let us monitor your trademark to inform you on new trademark or trade name registrations and applications. We can also help you to keep an eye on your competitors or specific products. Just contact us so that we can customize a service that fits your needs.

The reports

Our ambition is that all of our reports should be both thorough and informative. They always contain a comprehensive summary, analysis of findings, and a list of relevant findings/extracts with comments. We can deliver the report in Swedish or in English.

Register information and database withdrawal

We help you to get the information you need from our registers and databases. It can either be a few withdrawals or our IT department can assist you with larger amounts of requests. If you are working with large scale information selling then it may instead be of interest to buy the entire information in our trademark database and thereafter subscribe to weekly updates.

DELIVERY

We guarantee delivery within 7 days or 24 hours. Delivery is by fax, mail, e-mail or FTP account, and in addition, the report can also be encrypted. In the unlikely event that we do not keep the stipulated time, the delivery is free of charge. An additional fee of SEK 4000 is charged for express delivery within 24 hours. However, we reserve the right to reject a request for express delivery.

CONTACT

PRV InterPat
 Phone: +46 8 782 28 85
 Fax: +46 8 783 01 63
 Email: interpat@prv.se
 Website: www.prv.se/ip

PRV InterPat aims to carry out all requests accurately and thoroughly, but due to the extensive amount of information involved we cannot guarantee that the results are always exhaustive. PRV InterPat is bound to observe professional secrecy with regard to every search request, as well as the search result. This directive is supported by chapter 31, §12 of the Swedish Secrecy Act (2009:400). Documentation is delivered exclusively to the client, and may not be cited as a hindrance to novelty in a subsequent application. Please note that PRV retains all material sent in, including model.

Pre-file searches

Avoid Pitfalls

Before you launch a new brand on the market, it is important to assess if you are at risk of infringing someone else's existing rights.

Our pre-file searches

It is important to us that the search suits your needs. Hence, goods and/or service areas that are of relevance for the search are selected together with you.

The search covers the following:

- All national, international and EU trademarks, i.e. trademarks that are valid in Sweden.
- Confederation of Swedish Enterprise Registration (includes information from a particular company code, trade and association records.)
- Name and surname registry, religious communities, registered newspaper titles, domain names, and publication for databases on the Internet.
- We also make a broad control over the internet to see if there are any unregistered rights or other circumstances that may be relevant.
- Municipal coats of arms, official designations and heraldic arms.
- An assessment if the mark is distinctive or if it contains characteristics that can hinder the mark from being registered.

Our reports

The results are presented in an easily interpreted report that does not require any prior knowledge of trademarks. You will receive information regarding characteristics in other marks that are similar to your trademark or if we have found other obstacles. In addition, we are not sparing with our knowledge. Thus, if there are any reasons to raise an issue or to give you a tip, then we will include these in the report.

How long does it take?

You will receive a report with comments within seven working days. In case you need prompt answers, then you can also order an express pre-file search which is delivered within 24 hours (delivery is only on weekdays)

ORDERING

Contact us at PRV InterPat so we can ensure that you get help with what you need to know. You can reach us most easily by phone +46 (8) 782 28 85.

DELIVERY OF GUARANTEE

Delivery can be by fax, mail or e-mail. The report is delivered for free if we don't deliver in time. We reserve the right to reject an express request.

COSTS

You will receive a fixed price from us before the search is carried out. Our pre-file search normally costs 2 200 SEK (or by quotation if we need to examine more than 5,000 hits). An additional fee of 4 000 SEK is charged for delivery within 24 hours. All prices are listed without VAT.

Freedom to Operate search

Avoid unpleasant surprises

Before you launch a new brand on the market, it is important to assess if you are likely to infringe someone else's existing rights.

Our FTO-search

It is important to us that the search suits your needs. Hence, goods and/or service areas that are of relevance for the search are selected together with you.

The FTO-search covers the following:

- All national, international and EU trademarks, i.e. trademarks that are valid in Sweden.
- Confederation of Swedish Enterprise Registration (includes information from a particular company code, trade and association records.)
- Name and surname registry, religious communities, registered newspaper titles, domain names, and publication for databases on the Internet.
- We also make a broad control over the internet to see if there are any unregistered rights or other circumstances that may be relevant.
- Municipal coats of arms, official designations and heraldic arms.
- An assessment if the mark is distinctive or if it contains characteristics that can hinder the mark from being registered.

Our reports

MONITORING REGISTER INFORMATION

You can follow what is happening in a specific application or registration by monitoring the trademark register. You can for instance obtain information on whether an application is registered or rejected, or if a registration is renewed or not. The annual cost is 3 200 SEK + VAT.

COSTS

Normally, the costs of monitoring a trademark in the Swedish Trademark Register and the Swedish Trade and Industry Register is 5 600 SEK per year + VAT (including three goods and service classes, 400 SEK per additional class).

Databases for trademarks and designs

Would you like to offer your clients data from the Swedish trademark or design databases? You can purchase the data directly from us. You can always offer the latest information through weekly updates.

Database Content

The databases contain detailed data and images from both applications and registrations. The databases comprise all registry information; however, official letters and other office actions concerning trademark and design applications are not included.

Deliveries are made in accordance with WIPO's international standards via your own account on our servers.

As our customer

As our customer, we can offer your own contact person for handling information content, technology and support. You also have the opportunity to present data information directly from your own website/account in the manner best suited to your customers. We can also provide your staff with a customized half-day course if they need training in legal issues.

PRICE PER DATABASE

A basic withdrawal from PRV's database costs 75 000 SEK, which is a one-off fee. The fee for the weekly update delivery is 100 000 SEK per year. VAT is not included.

DELIVERY

Deliveries are made in accordance with WIPO's international standards via your own account on our servers.
