

ASC American Chemical Society

- Contains over 40 scientific journals.

Analytical Abstracts

- A reference database covering a range of sources.
- Published by the Royal Society of Chemistry
- From 1980-.

BASE

- Search engine targeting scientific open access journals of all disciplines.
- From Universitätsbibliothek Bielefeld

BIOSIS Biological Abstracts*

- Abstracts from research articles and other publications.
- The sources are journals.
- Contains all biological and biomedical disciplines.
- From 1969-.
- Updated weekly.

DOAJ Directory of open access journals

- Almost 10.000 open access journals gathered by Lunds University. 50% searchable on article level.

Embase Biomedical and pharmacological data*

- A biomedical and pharmacological database produced by Elsevier.
- Covers medical and drug-related subjects.
- Sources are conference proceedings and more than 4000 biomedical journal from 70 countries.
- Produced by Elsevier.
From 1947-.
- Updated weekly.

German Automotive Collection

- Contains journals such as ATZ – Automobiltechnische Zeitschrift and MTZ – Motortechnische Zeitschrift.
- Springer Verlag
- From 1998-.

Global New Products Database (GNPD)

- Contains data on new products in retail – food, beverage, beauty and personal care, healthcare, household goods and pet care.
- A Mintel database.
- Monthly updates.
- From 1996-.

J-STAGE Japan Science and Technology Information Aggregator, Electronic

- Access to around 2000 Japanese journals from various universities.

Karger

- Primarily biochemistry and medical journals from Karger Publishers.
- Contains approximately 85 journals.

MEDLINE US National Library of Medicine*

- Contains biomedical literature produced by the United States National Library of Medicine, abstracts included.
- Includes data from AIDSLINE; HealthSTART; HISTLINE; SPACELINE; BIOETHICS and POPLINE.
- From 1950-.
- Updated daily.

Nature journals

Contains:

- Nature (includes Nature News).
- Nature Biotechnology.
- Nature Genetics.
- Nature Medicine.
- Nature Methods.
- Nature Reviews Drug Discovery.

PUBCHEM Chemical structure and compound names*

- A database of chemical molecules and their activities.
- Contains substance descriptions and small molecules with fewer than 1000 atoms and 1000 bonds.
- Consists of three growing databases: PubChem Compounds, PubChem Substances and PubChem Assay.
- Released in 2004.

Royal Society of Chemistry Gold

- Contains 40 current journals and 7 databases.
- Contains an archive of 73 journals published between 1841-2007.

SciELO Scientific Electronic Library Online

- Contains scientific open access journals, primarily from Latin America.

Science Direct Freedom Collection

- Approx 2100 scientific journals from various disciplines.
- From Elsevier.
- Updated continuously – even before printed versions are issued.

SciTech Connect

- Consists of 2,5 millions references including 300.000 full text journals within the fields of chemistry, physics and environmental science.
- From the U.S. department of energy.
- Coverage from 1943-

Scopus

- A scientific database containing abstracts from journals, conferences, patents and industry publications.
- Contains over 40 millions references dating from 1823 onwards.
- From Elsevier.
- Updated daily

SpringerLINK

- Contains over 2100 journals from Springer Verlag.
- Some journals are Open Access.
- Coverage from 1924-

Springer Reference

- Major reference works and encyclopedias from Springer Verlag.
- Covers medicine, chemistry, technology and engineering.

SQEMEST Bibliographic data biological sequences. EST*

- A collection Expressed Sequence Tag.
- International collaboration, produced by Genbank and the DNA Database of Japan
- Produced by European Bioinformatics Institute.
- Updated quarterly.

SQEMGSS Bibliographic data biological sequences GSS*

- A collection of Genome Sequence Scan records.
- International collaboration, produced by Genbank and the DNA Database of Japan
- Produced by European Bioinformatics Institute.
- Updated quarterly.

SQEMOTH Bibliographic data biological sequences. EMBL Others*

- EMBL Others.
- International collaboration, produced by Genbank and the DNA Database of Japan
- Produced by European Bioinformatics Institute.
- Updated quarterly.

SQEMWGS Bibliographic data biological sequences. WGS*

- A collection of EMBL Whole Genom Shotgun records.
- International collaboration, produced by Genbank and the DNA Database of Japan
- Produced by European Bioinformatics Institute.
- Updated quarterly.

SQPRPUB Bibliographic data biological sequences. Uniprot+Prot*

- Public proteins and Patent records.
- The world's most comprehensive catalogue of information about protein.
- Comprises information from Swiss-Prot, TrEMBL, and PIR
- Produced by European Bioinformatics Institute.
- Updated quarterly.

SwePub

- Theses, conference papers and journal articles.
- Published by some 40 Swedish Universities, Research Institutes and Governmental Agencies.

Synthetic Reaction Updates

- A searchable literature updating service within synthetic organic chemistry.

TOXNET: TOXLINE

- Bibliographic database of drugs and chemicals.
- From the 1840s onwards.

Wiley Journals

- Subscription includes "Kirk-Othmer Encyclopedia of Chemical Technology" and "Ullman's Encyclopedia of Industrial Chemistry".
- Published by John Wiley & Sons.
- Contains all Wiley journals since 1997.

XPTK Traditional knowledge*

- A database containing references to traditional health-care systems and global literature on medicinal and aromatic plants.
- Sources are the Indian Journal of Traditional Knowledge and MAPA (Medicinal and Aromatic Plants Abstracts) database.
- Published by the National Institute of Science Communication – NISCOM
- Consists of more than 55 000 abstracts, books, conference proceedings, patents, research papers and review articles.

XPOAC Open Access Central Journal Articles*

- Open access to peer-reviewed biomedical and chemical journals.
- Includes peer reviewed research articles in all areas of physics and mathematics.
- Coverage from 1997.

XPIPCOM Ip com Prior Art*

- Full-text database
- Contains disclosure publications from companies such as IBM, Siemens, Microsoft, Motorola, and Sony.
- Includes disclosures from the US National Institute of Standards and Technology, the US Patent and Trademark Office and the Internet Society
- Historical coverage varies according to datasource
